

things are not going to be alright. rain water is undrinkable our children's children will inhabit a hellscape of our own making. life cannot exist without water.

Here, now.

# WORLD

The undeclared international water crisis

# Factory

Record droughts and floods, once-in-a-lifetime disasters, are now a yearly regularity. We, together, must initiate radical action if we are to have any hope. We can no longer wait for government or industry to react to loss of political power or
